Balancing Your Comerica Account

Balancing Your Account

Before you begin, please check your account register and record all of your recent transactions, including those listed on your current account statement (deposits, including interest, checks, withdrawals, Comerica ATM and Debit Card transactions or other charges), so your account register is up to date and ready to be balanced against your current account statement.

A. List any deposits not shown on this statement

Date	Amount
Total A: \$	

B. List all checks and other withdrawals not shown on this statement

Check Number	Amount
Total B: \$	

If there is an inaccuracy between your records and your account statement, contact us as soon as possible by visiting your local banking center, calling or writing us at the appropriate phone number or mailing address printed on the right. You may want to retain your account statement for your records. If you have selected either the Check Photo or Check Safekeeping option, and you need a copy of a check, you can call us at the appropriate phone number printed on the right.

If you have arranged to have direct deposits made to your account at least once every 60 days from the same person or company, you may call the appropriate phone number printed on the right to find out whether or not the deposit has been made.

Compare the amount of each check, plus other deposits and withdrawals listed on this statement, with the amount written in your account register.
